

Practical Foaling and Dystocia in the Mare

Thursday 13 or Friday 14 November 2025
Twemlows Stud Farm, Shropshire

Back again for 2025 after being sold out in 2024, Practical Foaling and Dystocia is led by experts in the field offering a combination of hands-on training and in-depth discussions to provide invaluable insights into mare dystocia. From straightforward foalings to intricate salvage operations and fetotomies, you will gain the knowledge, skills and confidence needed to handle a variety of scenarios and know when and how to refer or call it a day.

There are no other courses in Europe offering the same experience as this, with the opportunity to correct common malpresentations using cadaver foals. This is a must attend event for anyone in equine practice.

By the end of the course you will...

- Feel more confident with foaling and dystocia.
- Have improved your decision making and understanding of factors involved.
- Have increased your confidence in client communication.
